Dear Sir

Your front page article last week exposes the rampant self interest and gross hypocrisy of the Trade Unions in Queensland.

Together with the Banana Shire Council I have been fighting the Bligh Governments attempts to cut all sorts of services to Biloela and rural areas generally for a long time.

But election after election the unions give hundreds of thousands of dollars of money squeezed from their members' pockets to the Labor party to run dishonest advertising campaigns to get re-elected.

The same people now parading around in their own self interest were those who financed and supported the lies that got Anna Bligh and the Labor Government elected.

If the Union leaders are fair dinkum then let them give a promise to their rank and file members that they will not give one more cent of their hard earned money to the Labor liars until the services are all restored to Biloela.

If they will not do that they confirm beyond question they are only squealing in their own self interest

Yours sincerely
